

Comments on proceeding: 02-278

- I am totally against the FCC implementing any proposal that would lessen Indiana's Telephone Privacy law protections.
- This law is very effective and I really appreciate having it. I do not receive telemarketing calls at all now.
- So many times the calls came in during our evening meal and now it is so nice to finish a meal without being interrupted by someone trying to sell us something. The late night calls were very irritating too.
- There is nothing worse than being on a ladder painting the ceiling when the phone rings, you rush down to answer it thinking it could be important and then to hear someone on the other end wanting to sell you windows, siding or the like! I go to the stores to buy everything I need.
- I pay to have a telephone for my own personal use and for family and friends to call me on and not for strangers to call to try to sell me something.
